

COMPANY PROFILE

THE COMPANY

Joblift was founded in 2015 by Lukas Erlebach. The company currently employs approximately 70 team members in Hamburg, Berlin, London and San Diego.

THE PRODUCT

Joblift is a job search platform that searches over 4,000 partner job boards and compiles vacancies simultaneously on one site. An intelligent search algorithm, clever filters for more personalised search results, as well as an especially intuitive service and user-friendly design, all serve to distinguish Joblift from other job portals. Additionally, the user can sign up to receive regular job alerts via email.

THE FOUNDER

Prior to founding Joblift, Lukas Erlebach held the role of Head of Germany for Zalando, as well as Project Leader for the Boston Consulting Group.
